GB203

Portable Ventilation Fan

- The Aerospace turbine fan design provides **vast and high output airflow**.
- **Compact size, angular adjustment, and lightweight** with easy hand-carrying handle give excellent portable function.
- **Shock-proof and durable double-walled housing** provides indestructible life use.
- **Two-speed setting helps ventilate well at various working areas.** Suits for shipyard work, steel construction, public sanitary sewer, and rescue team requirements.

Applicable to confined spaces

Voltage/HZ	110V-120V/ 60HZ 220-230V/ 50HZ 220-230V/ 60 HZ
Maximum Blowing Distance	More than 12 meters (50HZ)
Product Dimensions	40 x 39 x 47 cm
Size	8"
Angular Adjustment	0°~90°
Weight	9 KG (with stand)
